Art Unit: 2762

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-29 and 3-35 are drawn to a method and apparatus for handling a computer task using intelligent agent, classified in class 706, subclass 16.
- II. Claims 30-32 are drawn to a program product, classified in class 364, subclass DIG. 1.

2. The inventions are distinct, each from the other because:

Inventions group I and group II are related as combination and subcombination.

Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because claim 1 (evidence claim) does not include the subcombination of group II. The subcombination has separate utility such as a signal bearing media bearing the program.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 2762

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to George Davis whose telephone number is (703) 305-9640. The fax phone number for this Group is (703) 305-3988.
